CookiePro

by **OneTrust**

Simplify Compliance with ePrivacy, GDPR and CCPA

Global privacy laws, like ePrivacy, GDPR and CCPA, require companies to inform visitors about the data being collected on their website and provide them with granular choices over the information they are willing to share. In order to comply with these laws and provide a transparent experience that builds trust, website owners are rethinking their cookie compliance.

Cookie Consent Made Easy

CookiePro was purpose built to help website owners achieve and maintain cookie compliance quickly and easily. CookiePro simplifies cookie consent through an automated website scan against the largest database of pre-categorized cookies CookiePedia by OneTrust, built-in templates and multiple consent models that can be easily tailored to address requirements across various laws and standards. CookiePro is powered by OneTrust, the industry leading privacy management platform.

1. Scan your site against the largest database of precategorized cookies

2. Style the cookie banner and preference center to align with your site

3. Configure the consent model and localize content based on visitor location

4. Block cookies that require prior consent and add CookiePro scripts to your site

5. Setup ongoing cookie monitoring and publish updates with a single click

Works with Tools You Use

Adobe

ensighten
