

Simplify Global Compliance for Websites and Mobile Apps

Global privacy laws such as GDPR, CCPA and LGPD require companies to inform visitors about the data being collected on their website and provide them with granular choices over the information they are willing to share. In order to comply with these laws and provide a transparent experience that builds trust, website owners are rethinking their compliance.

Consent Made Easy

CookiePro is powered by OneTrust, the worldwide leader in privacy management software. The CookiePro product offerings are an advanced consent solution, made up of Website Scanning & Cookie Consent, Mobile App Scanning & Consent, and Data Subject Rights that can be used together or individually to create an advanced consent solution with an intuitive user interface, simplified billing and 24/7 support.

Five Steps Towards Compliance

1.

Scan your site against the largest database of precategorized cookies

2.

Style the cookie banner and preference center to align with your site

3.

Configure the consent model and localize content based on visitor location

4.

Block cookies that require prior consent and add CookiePro scripts to your site

5.

Setup ongoing cookie monitoring and publish updates with a single click

Works with Tools You Use

Most Mature and Trusted Consent Tool

Ensure your website is cookie compliant

Website Scanning

Scan your website against the largest database of pre-categorized cookies with CookiePedia by OneTrust

Cookie Banner

Generate a cookie banner to inform visitors that cookies are being used on your website

Cookie Notice

Embed a dynamic list of cookies, categories and descriptions in your cookie notice

Record of Consent

Maintain granular consent transaction to demonstrate compliance over time

Built-in templates

Leverage built-in banner and preference templates with sample texts (50+ languages)

Geo Targeting

Configure consent model based on visitor location

Automate consumer and subject requests

Intake Forms

Generate branded intake forms and embed them on your website and behind a login

Do Not Sell

Create a dedicated form for visitors to opt-out of the sale of personal data to third parties

Built-in Templates

Leverage a library of response templates built by in-house privacy experts

Secure Portal

Protect the data subject's data by communicating back and forth via a secure portal

Automated Workflows

Efficiently manage requests and tasks across the entire lifecycle with automated workflows

Real-time Notifications

Get notified when requests come in, data subjects respond, tasks are completed and more

Collect consent for your application

App Scanning

Scan your app for third-party tracking technologies

Collect App Consent

Collect valid and granular user consent while adhering to global regulations

Manage Preferences

Leverage customizable preference centers that allow users to manage their communications

Eliminate Data Siloes

Use historical documentation for data audits and manage consumer and data subject requests directly from the portal

You're just a few clicks away from compliance
